I notice...

I wonder...

Purpose

Key Question: What are some initiatives at your school that your space could support? What ideas and practices could excite your staff?

People

Key Question: Who are some key players in your school who could take the lead? Who enjoys collaborating? Who is vested in the school's vision? Who could use some help?

Action Plan

What are your next steps? List them here:

Learning Space Design

- What is an ideal location for this space and why?
- What type of furniture will promote collaboration and robust instructional practices? How will you arrange the furniture?
- What type of technology could be used in this space?
- What other needs might this space serve (community events, student groups, presentations, etc.)
- How large of space will you need? (consider possible uses, number of users, etc.)
