

PowerSchool Unified Talent™ (TalentEd) Professional Learning

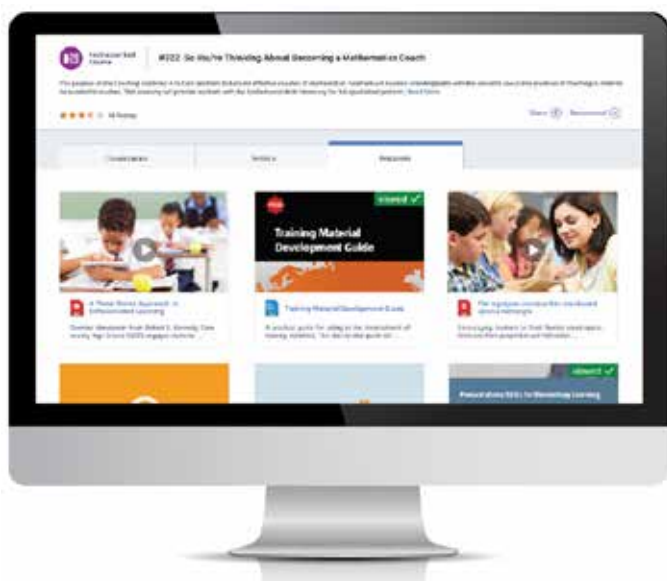

Because Learning Never Stops

PowerSchool Unified Talent™ (TalentEd) Professional Learning helps administrators find the answers to make effective professional learning decisions for educators.

- Self-directed activities
- Alignment to standards
- Streamlined onboarding
- Progress tracking

Spend Less Time Tracking PD, More Time Learning

Manage, monitor, and analyze all professional learning efforts, including budgeting, credentialing, scheduling, and comparing progress throughout the district. Educators can easily track their own progress on course completion and credits.

Customized Learning

Control content and customize educators' course options.

Powerful Reporting

Detailed analytics reveal the effectiveness of learning efforts.

Course Analytics

Gain insight into attendance and actionable feedback through course surveys and on-demand reporting.

Acquire and Offer Courses from Industry-Leading Content Providers

Create an online professional learning catalog of all resources and customized courses aligned to content areas. Acquire and offer new courses at any time through a marketplace of premium content.

Easy Anytime Access to the Education You Want

Powerful search functionality using faceted navigation and targeting to demographics lets you quickly find all relevant learning opportunities and view course ratings from colleagues to determine course quality. Learners can complete online courses anywhere, anytime.

Recommend, Require, or Restrict Learning Based on Demographics and Development Needs

Control content and customize educators' course options to ensure each professional learning experience is targeted to offer the most benefit.

See how you can maximize the reach of your resources with PowerSchool today!
