## Theories of Action *If...Then...Statements*

**Then** – What will the students **learn**?

Is the learning measurable? Qualitatively?  
Is the learning connected to the expectations?

**If** – What do we wonder about?

Curriculum    Instruction    Assessment    Culture/Climate

What do **we** need to learn more about to impact student learning?

Develop an inquiry question (*focus on your own learning*):

## Theory of Action

**THEN:** What is your desired outcome from this inquiry?  
(Impact on your students)

**IF:** What will you need to do differently in order to get to your desired outcome? (Teacher Action)

**TO:** What is your purpose or rationale for selecting this teacher action?

What will you need to learn more about? What resources might help you in this learning journey?
