

DARE JENGA

Object of *Jenga* game:

Remove one block at a time from the tower, and then stack it on top. The last player to stack a block without making the tower fall wins the game. The game ends once the tower falls even if only one or two Jenga blocks fall.

Gameplay:

- The player that has been with HES the longest goes first.
- Play passes to the left.
- Carefully remove a block from anywhere below the highest completed story, **using only one hand** (it is not permitted to hold or steady the tower with the other hand). Then stack the block on top of the tower at right angles to the blocks just below it. Remove and stack one block per turn.
- As play proceeds and the weight of the tower shifts, some blocks become looser than others and are easier to remove. You can touch other blocks to find a loose one, but if you move a block out of place, you must fix it (using one hand only) before touching another block.
- While stacking, always complete a 3-block story before starting a higher one.
- Your turn ends 10 seconds after you stack your block - or as soon as the player to your left touches one.

Winning:

If you're the last player to stack a block without toppling the tower, you win! The player who makes the tower fall gets to set up the tower for the next game.

Dare Jenga:

There will be dares written on various Jenga blocks. When you pull a block with a dare, you have to perform the dare that's written on it. Your survivor points for this challenge will be based on the number of dares completed by your team.

Each team has the opportunity to earn 2 bonus points for TEAMWORK during this challenge.

If time allows, your team may play additional games. Points will continue to be awarded for any dares the team has not completed, but you cannot earn points for dares already completed in the first game.
