

CONNECT TEACHERS TO EVALUATION FRAMEWORKS WITH ONE CLICK

Easy. Cost-effective. Actionable. These aren't usually words associated with professional development (PD)—but they are now. Gale is advancing personal learning by offering alignments with The Danielson Framework for Teaching (FFT). Available through *GVRL*, Gale's eBook platform, these enhancements save time, promote wider usage, foster personalization, and make reaching domains and dimensions actionable. By adding these to your PD collection(s), you're offering teachers a voice and a choice to pick content aligned to the dimensions in need of critical focus.

EMPOWER SUCCESS WITH JUST IN TIME, PERSONALIZED PROFESSIONAL DEVELOPMENT RESOURCES

BEGIN WITH A STRONG FOUNDATION

To help meet professional learning goals, a panel of teachers aligned many of Gale's publishing partners' PD collections with FFT. This allows educators to match the exact alignment they need with an entire list of eBook titles that support them.

MEET PERSONAL AND GROUP GOALS

Support individual goal-setting and professional development plans with framework alignments. For example, a teacher who wants to meet Dimension 1a: Planning and Preparation, and learn more about demonstrating 21st-century skills in the classroom, can retrieve a title like *Solving the Homework Problem by Flipping the Learning* when searching ASCD Collection 11. Additionally, alignments can enhance school-wide instruction by supporting professional learning communities, school improvement plans, evaluations, and more.

CUSTOMIZE YOUR COLLECTION

Use *Gale Admin* to further align titles within your collection(s) to additional domains and dimensions. This works particularly well when trying to meet collective goals or when choosing to bring in titles from additional Gale collections that are not aligned. If you're looking to align to other frameworks or strategic objectives, please contact a Gale education consultant to help you find an effective solution that fits into your budget.

“There are so many valuable resources for professional learning at our fingertips and this makes it so much easier to guide and coach our teachers in a way that provides them with the skills necessary to improve their practice. It also provides the same for administrators.”

Andrea Misuraca
Secondary Curriculum Coach,
Van Dyke Public Schools, Warren, MI

MASTER WORKFLOW

The power of **G Suite for Education** and **Microsoft Office 365** tools enable users to easily save, share, and download content—including highlights and notes.

Product screen capture as of September 2018. Actual interface may vary.

PD PLUS FRAMEWORK ALIGNMENTS

SEARCH ALIGNED TITLES

by domain or dimension.

CROSS-SEARCH

to uncover relevant content within all aligned titles.

CUSTOMIZE COLLECTIONS

using Gale Admin to highlight specific initiatives.

TRANSLATE

content into more than 40 languages—on screen and read aloud.

ADD HIGHLIGHTS AND NOTES

for yourself—and others.

LISTEN BY CHAPTER

in school, at home, or on the go.

PERSONAL LEARNING STARTS HERE

As educators work to meet various professional development requirements, it's important for them to access resources that can be personalized and align with evaluations. Not only does this make fulfilling requirements easier, it ensures that goals are actionable and tie to teacher and student outcomes with ongoing professional learning.
