

## Student-Led Discussion Framework Video Viewing Guide

Directions: Assign a table group one item of *look fors*. Make sure participants capture exact language or visual evidence for each question to share with your group.

| What to look for  | Evidence from video |
|---|---------------------|
| 1. What is the content learning target of the lesson? What is the speaking/listening learning target?   |                     |
| 2. How does the teacher model the learning target in the <b>focus lesson</b> ?  |                     |
| 3. Explain how the students shown in the video applied the learning target.   |                     |
| 4. What method did the teacher use to take notes while observing students? How did she capture students' application of the learning targets? |                     |
| 5. What method did the teacher use to offer feedback about students' discussions? How did she use the collected data to provide feedback?     |                     |
| 6. What did you notice about the environment? Pay attention to instructional strategies, student groupings, anchor charts, texts.             |                     |
