

CHANGING MINDS

COACHING FOR A LEARNING MINDSET

2019 LEARNING FORWARD ANNUAL CONFERENCE

DECEMBER 7-11, 2019

As coaches and administrators, we know that educators operate from a learner mindset when they continually build their instructional practice and bring out the best in students. This session offers skills for coaching self and others towards active mindset awareness and navigation. Participants will acquire strategies for coaching teachers to reflect on their unconscious beliefs and take steps toward adopting a learner mindset.
