By the end of this session, you will be able to:

- define and identify the elements within the Community of Inquiry theoretical framework
- develop engaging and relevant online courses utilizing a variety of resources
What makes professional development effective?

What has been your experience with online learning?
What do you hope to gain from this session?

**Story Time**
The Community of Inquiry theoretical framework represents a process of creating a deep and meaningful learning experience through the development of three interdependent elements.

Garrison, Anderson, & Archer, 2001

#COI

**Community of Inquiry**

Cognitive Presence

Teaching Presence

Social Presence

---

**Text Rendering Experience**

Significant Sentence

Significant Phrase

Significant Word
Teaching: is the design, facilitation, and direction of cognitive and social processes for the purpose of realizing personally meaningful and educationally worthwhile learning outcomes.

Social: is the ability of participants to identify with the community, communicate purposefully in a trusting environment, and develop interpersonal.

Cognitive: is the extent to which learners are able to construct and confirm meaning through sustained reflection and discourse.

Musical Shares
I had an awesome presenter, teacher and leader. She displayed high energy and expertise throughout the course. I appreciate an instructor like her and would highly recommend her to anyone seeking a knowledgeable, engaging instructor.

I had such an encouraging instructor. She really connects with each of us and I appreciate that. I have truly appreciated the support and constant encouragement to reach out if help is needed.
"I have really enjoyed the content of the class. I have enjoyed the videos chosen. They have been helpful, and I like the length—none are too long. I also enjoyed being able to record myself applying the strategies and reflecting on my practices."
On a post-it note or a sheet of paper, jot down everything you have learned about during this session.
